DETAILS

The FBI is seeking the public's assistance in identifying the unknown suspect involved in setting incendiary fires at two ballot boxes in Vancouver, Washington, and one in Portland, Oregon. On October 8, 2024, between 3:30 and 4:00 a.m., an unknown individual placed an improvised incendiary device on a ballot drop box in Vancouver, Washington. Subsequently, on October 28, 2024, between 2:00 and 4:00 a.m., improvised incendiary devices were placed on ballot drop boxes in Vancouver, Washington, and Portland, Oregon.

A surveillance camera captured images of an early 2003 to 2004 Volvo S-60 sedan, dark in color, with dark wheels and a light-colored interior, driven by the suspect believed to be responsible for these crimes. The vehicle does not have a Volvo logo on the front grill. At the time of the October 28, 2024, incidents, the vehicle also displayed a fraudulent temporary Washington license plate on the rear and no front license plate. The plate, which is not associated with a Volvo, may no longer be on the vehicle.

The driver of the vehicle is described as a White male, approximately 30 to 40 years old with thinning hair. It is believed that he may have some experience with metal work and welding.
